**NOTIFICATION**

Tth 21st March, 2018

**THE PUNJAB MUNICIPAL OUTDOOR ADVERTISEMENT POLICY – 2018**

**No. CTP(LG)-2018/ 953.-**The Governor of Punjab is pleased to notify the Punjab Municipal Outdoor Advertisement Policy 2018, as following:-

**1.0 Back ground -** The Local Govt. Department formulated The Punjab Municipal Outdoor Advertisement Policy 2012” and it was aimed to respond to emerging global practices as well as the need to maintain the character of the cities in line with their heritage and cultural background. The Policy is premised on the fact that while Outdoor Advertisements do bring revenue to the city, it must be driven by considerations of safety, aesthetics, decency and social ethics and that advertisements are promoted primarily in parts of the city, which are commercial in nature: business, industrial and shopping districts and discouraged in residential areas and urban freeways. However looking into the changing needs of advertisement and

based on the past experience, "The Punjab Municipal Outdoor Advertisement Policy 2018" has been formulated.

**2.0 Application** - The policy shall be applicable to all advertisements within the limits of the Municipalities, whether on land, building, wall, hoarding, frame, kiosk, post, tree guards or by any other means whatsoever by which it is open to public viewing, visible from a public street or public place, whether moving or non-moving.

**3.0 Definition** - "Advertisement" means any device or representation in any manner such as announcement or direction by word, letter, model, image, or a combination thereof sign by means of posters, hoarding, banners, temporary arches, electronic display, name boards, direction boards, balloons or any other visible etc. displayed to promote a product or service in a commercial sense under categories defined in this policy.

**4.0 Premise of the policy: Ensuring city aesthetics and safety**

**4.1** The policy is based upon a careful review of global studies in the field of outdoor advertising. The premise of the policy is that hoardings are not hazardous to the general public.

**4.2** This requires the policy to consider the location, design, size or type of sign where, there is potential for conflicts with the safety of people.

**4.3** The policy is premised on the fact that while outdoor advertisements do bring revenue to the city, any city-based policy must be driven by considerations of city aesthetics.

**4.4** This policy aims at reducing 'visual clutter' due to unorganised placement of advertisement.

**4.5** The purpose and objective of policy is to ensure safety of the people, to seek enhancement of the physical character and visual appearance of the city and bring revenue to the ULBs without compromising the safety of people.

**4.6** The policy is premised on the basis that advertisements are promoted primarily in parts of the city, which are commercial in nature: business, industrial and shopping districts and discouraged in residential areas.

**5.0 Principles and Objectives: The Punjab Municipal Outdoor Advertising Policy, 2018**

**5.1** The policy for outdoor advertising is driven not only by revenue imperatives, but by city development imperatives. Therefore, in its implementation, it will be clear that outdoor hoardings/Billboards are permitted only if they are not a hazardous to people or if they support the city's public service development and enhance its aesthetics.

**5.2** The policy will explicitly work to discourage visual clutter. This will be done by increasing the space between the billboards and in restricting large billboards to select areas of the city.

**5.3** The policy is designed to ensure that outdoor advertising is not hazardous to public. This will be done by allowing large size billboards only after significant distance by providing significant space between the two billboards on roads.

**5.4** The policy will actively promote the large size billboards in commercial areas of the city. In this case, the agency will work to maximize the revenue gains, which can be used for city development.

**5.5** The policy will promote the use of advertising in what is commonly known as street furniture. These are devices placed on public service amenities of the city like railway carriages, buses, metro trains, commercial passenger vehicles, bus shelters, metro shelters, public toilets and public garbage facilities, to name a few. This is done to improve the revenue viability of these public provisions. But it will be noted that the use of advertising space is not the primary function of the utility, it is its supporting

function. Therefore, the city agency will ensure that the placement of the public utility is done keeping in mind its public purpose, not its advertising viability. In addition, the agency will ensure that the primary function of the “street furniture” is being maintained and if not then suitable punitive action must be taken against the advertising concessionaire.

**5.6** The policy is judicious in ensuring that there is a differentiation between the use of commercial advertising and private advertising, where signage is used to identify the location of the owner of the building or the space within the building. The policy will do this by laying down clear lists of what is permitted and what is completely not permitted to guide members of the public.

**5.7** The policy will be strictly adhered to and to achieve these objectives, ULBs will impose Penalty/ Fine as per Municipal Laws.

**6.0 Categories of Advertisement Devices: The advertisement devices shall be broadly classified as follows:-**

Category 1: Large - format advertisements, mainly fixed on Billboards/ Unipoles / Bipoles / Variable Message advertising device such as LED, LCD Screens etc. and bridge / flyover panels/ Gantry etc;

Category 2: Advertisements mounted on public amenities, like public toilets, garbage collection points/ Flag Signs etc;

Category 3: Fleets and transport related infrastructure;

Category 4: Advertisement devices for self-advertising;

**7.0 General permission criteria for advertising devices**

**7.1 Outdoor advertising and road safety criteria**

The permission criteria for the display of advertising devices within the jurisdiction of ULBs are intended to ensure that a high level of safety for road users is maintained and traffic efficiency is assured. An advertising device may be considered a traffic hazard

- a) If it interferes with road safety or traffic efficiency
- b) If it interferes with the effectiveness of a traffic control device (eg. traffic light, stop or give way sign).
- c) Distracts a driver at a critical time (eg. making a decision at an intersection).
- d) Obscures a driver's view of a road hazard (eg. at crossing or traffic red lights in the road).
- e) Gives instructions to traffic to "stop", "halt" or other (i.e. Traffic Red Light).
- f) Imitates a traffic control device.
- g) Is a dangerous obstruction to road or other infrastructure, traffic, pedestrians, cyclists or other road- users.
- h) Is in an area where there are several devices and the cumulative effect of those devices may be potentially hazardous.
- i) If situated at locations where the demands on drivers' concentration due to road conditions are high such as major intersections

The traffic hazard potential of an advertising device varies depending on its size, location, uminance and background.

**The application of control on physical characteristics is intended to minimize the level of driver distraction.**

**Control of the physical characteristics of advertising devices shall be as follows:**

- (i) Advertising Devices shall not use shapes that could potentially result in an Advertising Device being mistaken for an official traffic sign.

- (ii) The Code of Practice for Road Signs IRC: 67-2001 or its further amendments, by Indian Roads Congress prescribes the basic design parameters of official traffic signs and includes standard legend/background colour combinations.
- (iii) Advertising Devices shall not use colour combinations that could potentially result in an Advertising Device being mistaken for an official traffic sign.
- (iv) Advertising shall not contain flashing red, blue or amber point light sources which, when viewed from the road, could give the appearance of an emergency service or other special purpose vehicle warning light/s,
- (v) All lighting associated with the Advertising Device shall be directed solely on the Advertising Device and its immediate surrounds.
- (vi) External illumination sources shall be shielded to ensure that external 'spot' light sources are not directed at approaching motorists.
- (vii) Illumination of advertising device is to be concealed or be integral part of it.
- (viii) Upward pointing light of the device shall not be allowed, any external lighting is to be downward pointing and focused directly on the sign to prevent or minimize the escape of light beyond sign.
- (ix) Any light source shall be shielded so that glare does not extend beyond the Advertising Device.
- (x) The average maintained luminance shall be reduced to 0.5 candela or all together shut, after 2300 hours (11pm) and sunrise by automatic timing devices.
- (xi) Non-static illuminated Advertising Devices (flashing lights) are not permitted within the boundaries of ULBs Jurisdiction roads.

## **7. 2. Outdoor hoarding and their content criteria**

The policy will rely upon self-regulatory controls within the advertising industry to enforce minimum advertising standards. Notwithstanding this approach, the city agencies may take action to modify or remove any Advertising Device that contravene the Advertising Industry's Code of Ethics, (refer List of Negative Advertisements) or that otherwise causes a traffic hazard.

### **List of negative advertisements**
